CORE COMPETENCIES

- Software Development Lifecycle
- Front-end Development
- Coding
- Project Execution
- Unit & Integration Testing
- Agile Methodologies
- Incident Resolution
- Reporting & Documentation
- Software Testing
- Client Relationship Management

EDUCATION

- **B.E (Electronics & Telecommunication Engineering) | 8.03 CGPA**
College of Engineering, Pandharpur, 2021
- **12th (MSBSHSE) | 7 CGPA**
Shivaji College Barshi, 2017
- **10th (MSBSHSE) | 8 CGP**
Maharashtra Vidyalaya, Barshi, 2015

TECHNICAL SKILLS

- React.js | JavaScript | HTML | CSS | Bootstrap | API | Java | Material-UI | ADOBE XD | Tailwind

TOOLS

- VS Code studio | Git | Postman | Adobe XD | Jira | Eclipse |

CERTIFICATIONS

- JavaScript, Udemy, 2022 [Link](#)
- HTML & CSS, Udemy, 2023 [Link](#)
- React JS, 2023 [Link](#)

PROJECT DETAILS

- YouTube Clone [Link](#)
- Facebook- clone [Link](#)
- Weather App [Link](#)

PERSONAL DETAILS

- **Date of Birth:** 23rd September, 1999
- **Languages Known:** English, Hindi and Marathi
- **Address:** Bashinge Plot, Barshi, Solapur, Maharashtra- 413401

PROFILE SUMMARY

- **Certified JavaScript & ReactJS professional** with extensive experience in the IT industry, specializing in web application development using HTML5, JavaScript and React.js, while adhering to best practices and industry standards
- Actively contributed as an **Associate Software Engineer** at Mphasis, collaborating with a team of skilled developers to deliver exceptional products and services to clients
- Showcase proficiency in **React.js, HTML, CSS, JavaScript**, effective client communication, API Integration, Git Version Control, Bootstrap Framework and JIRA project management
- Understanding of **Software Development Lifecycle (SDLC)** right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications
- Led the **end-to-end process of requirements gathering**, technical specification finalization, and seamless implementation and testing of applications
- Acknowledged with **Excellence Awards** from both Client and Project Managers for exceptional contributions and dedication to project success

WORK EXPERIENCE

Associate Software Engineer

Mphasis, Chennai

Oct'21 - Present

Key Result Areas:

- Developing software solutions by studying information needs, conferring with users, studying systems flow, data usage and work processes
- Liaising with users for requirement gathering; preparing functional specifications and low-level design documents
- Managing the maintenance of program modules, including operational support, problem resolution, production support, preventative & corrective maintenance, and enhancements
- Modifying existing code bases, adding new features, conducting unit testing, and integrating systems for feature releases, while adhering to Agile and Iterative Development Methodologies
- Collaborating with cross-functional teams to ensure seamless integration of software components, resulting in efficient & effective project delivery
- Conducting code reviews and providing constructive feedback to improve code quality and maintainability

Highlights:

- Received an award for excellence in project work from the Client Manager and Project Manager
- Proven track record of delivering high-quality products and services, consistently meeting or exceeding client expectations
- Strong problem-solving and analytical skills, with the ability to quickly identify and resolve complex technical issues
- Showcased expertise in ReactJS design, creating visually appealing and user-friendly interfaces that enhance the overall user experience

INTERNSHIP

Full Stack Development Trainee

Newton School, Bangalore

May'21 - Nov'21

Key Result Areas:

- Acquired strong problem-solving skills and knowledge of front-end and back-end tools
- Developed proficiency in React.js, HTML, CSS, JavaScript, GitHub, API, Bootstrap and Material-UI

Annexure

Projects Details:

- **Project Name:** YouTube2.0 Clone
 - **Technologies used:** Developed: React.js, Material-UI, JavaScript, Git, HTML, CSS, API, Tailwind
 - **Description:**
 - The main goal of the YouTube clone project in react is to develop a web application that replicates core functionalities and the user experience of the popular Media Platform YouTube
 - An application where user can play video like YouTube
 - Features: Used to search Video, Play Video, Navigate to Channel Details; Open YouTube API is used for getting data
-
- **Project Name:** Facebook- clone
 - **Technologies used:** React.js, HTML, CSS, JavaScript, GitHub, Material-UI
 - **Description:**
 - The goal of the Facebook Clone Project in React is to develop a web application that replicates the core functionalities and user experience of the popular social media platform, Facebook
 - A Facebook Web Application UI
 - Created a design and added one functionality to add post
-
- **Project Name:** Weather App
 - **Technologies used:** React.js, HTML, CSS, JavaScript, GitHub, Material-UI
 - The app will retrieve real-time weather data from a reliable API and present it to users in a clear and concise manner. Users should be able to view essential information such as max and min temperature
 - An application where user can search the weather details by city name
 - Features: Used Current Weather and forecast - open Weather-map API for getting live weather data and if entered city which doesn't exists then we will say no data found
